

We work at the intersection between the **EUROPEAN EDUCATIONAL AREA** and **THE EUROPEAN LABOUR MARKET**, implementing the European policies in these areas.

On the one hand, we provide **Training & Consulting** to institutions interested in upskilling on aspects related to EU Funding Programmes and accessing EU Grants.

On the other hand, we are **PARTNERS** in European Consortia within EU-granted projects.

Some examples of institutions we work with across different member countries of the EU / Programme countries, including, but not limited to the below:
