eucontact.eu

- 1 • We are FAMILIARISED with the EU “FROM WITHIN”** 

Before joining **EUCONTACT**, the members of our team had worked both with European institutions & institutions with European activity scope, thus having longtime, comprehensive, hands-on insights into the European funding programmes and a history of successful participation in bids and tendering procedures.
- 2 • NO RUNNING STAFF COSTS for our Training and Consulting on EU Funding Programmes & on developing and implementing** 

EU-funded projects, in Partnership with Companies/ Public Institutions, based in the EU/Programme countries.
- 3 • Training and Consulting on Proposal development & submission to access EU funding in MULTIPLE EU/Programme countries versus only one, in the national language of the respective country** 

Training and Consulting on successful development & submission of Project Proposals in multiple EU/Programme countries, in the national language of the respective country, in PARTNERSHIP with the institutions we cooperate with, by considering both the national priorities (in the National Calls for Proposals of the specific country), as well as the European ones (in the European Call for Proposals), in the context of a given bidding/ tendering round. In this context, we lay special emphasis on CAPACITY BUILDING within our PARTNER organisations, Companies/ Public Institutions, based in the EU/Programme countries.
- 4 • Training and Consulting provided in the form of MULTI-YEAR cooperations, on a sound PARTNERSHIP basis, promoting CAPACITY BUILDING within our PARTNERS’ organisation, Company/ Public Institution, based in the EU** 

for developing Project Applications/Proposals/Bids to access EU funds and implementing such EU-funded projects. Hence, we promote Authorship of such Project Applications/Proposals/Bids at the level of the APPLICANT, our PARTNER organization. We love being PARTNERS in such EU-funded projects, clearly contributing to the implementation of such EU-funded bids.
- 5 • MULTINATIONAL team, at home in Europe** 

We don’t only work internationally, we **are** international. The intercultural and linguistic knowledge of **EUCONTACT**’s staff are an asset when building multinational consortia for EU projects.
- 6 • INTERDISCIPLINARITY** 

Our interdisciplinarity warrants the **COMPETITIVENESS** of the Training and Consulting on Project Proposals we develop to access EU funds.
- 7 • PROFESSIONAL HANDLING of SHORT-TERM CHANGES, UNFORESEEABLE situations and AMBIGUITY** 

The above-mentioned features have been recently tested out multiple times, being among the few institutions in Europe, able to complete our cross-national projects under the lockdown restrictions of the **Corona pandemic** and **inflation**, also down to the energy crisis in Europe (and worldwide), turning EU funded budgets upside-down in the implementation phase. We are stress-proof, preserving calmness and a problem-solving attitude in times of distress.
